

Trans European Law Firm Alliance

In a globalised world, clients' needs do not stop at national borders. In order to be able to advice on cross border projects, international judicial questions and explain legal differences between countries, the Trans European Law Firm Alliance (TELFA) was set up. TELFA consists of independent top-quality law firms in the majority of European countries who share a common mindset on service and partnering with your business.

Within TELFA, you engage local expertise from firms that have successfully worked together for the benefit of mutual clients. TELFA members assist and facilitate you in cross border challenges; your local contact remains your contact person throughout the process and guides you through the labyrinth of European rules and regulations. In order to assist you in the US, TELFA is associated with the USLAW network which has over 100 firms throughout the Americas and Canada.

Thought leadership

Want to know more about any international judicial topics and questions?

Please visit www.legalknowledgeportal.com or download the free Global Law app in the iTunes store for any up to date articles.

The online portal and Global Law app together form the first platform that brings together the latest worldwide news on international legal developments. With over 50 top law firms in Europe, the US and the BRIC countries contributing, the Global Law app brings together the views of local specialists on new laws, legal developments and the implication of verdicts to organizations around the world. Updated daily, the app is a must have for everyone doing business internationally. Users of the app can search

for articles by topic or by country, can forward publications to others or choose to read them later. For additional information authors of the articles can be contacted easily providing the user with an instant global network of law firms.

Contact
